

# 2023 Charter Schools of Central Texas

## What is a Charter School?

A charter school is a tuition-free school of choice that is publicly funded but independently run. Conceived over 25 years ago in Minnesota as a means to loosen red tape around public schools and free up educators to innovate. The schools are operated according to operating agreements called “charters.”

## Who Attends Charter Schools?

Charter schools do not draw students from an assigned area; families choose to send their children to them. If demand for enrollment in a charter school exceeds space, students are usually picked by a random lottery.

## How are Charter Schools Funded?

Charters receive state and local money based on the number of students they enroll, as well as money from the federal government to provide special education services, just like traditional district schools.

## Who Runs Charter Schools?

On a day-to-day, operational level, a charter school is run by a school leader or principal and overseen by an appointed board.
