TEA's Accountability Reporting Overview

Texas Academic Performance Reports (TAPR)

The Texas Academic Performance Reports (TAPR) pull together a wide range of information on the performance of students in each school and district in Texas every year. Performance is shown disaggregated by student groups, including ethnicity and socioeconomic status. The reports also provide extensive information on school and district staff, programs, and student demographics. The data presented in this guide pulls from the 2022-2023 school years.

Due to the extensivity of the information found in the TAPRs, this guide will only highlight the findings on the school districts in Travis, Williamson, Hays, Bastrop, and Burnet Counties such as student, staff, graduation/drop out rates. To view the entirety of the TAPRs, please visit <https://tea.texas.gov>

For More Information

For general information about the requirements of public schools in Texas, contact:

Office of General Inquiry

TEA's Accountability Ratings

TEA uses an accountability system to evaluate the academic performance of Texas public schools. Information from different sources is used to calculate and assign accountability ratings and award distinction designations.

Who is Rated? Districts and campuses with students enrolled in the fall of the 2021-22 school year are assigned a state accountability rating.

Districts Beginning the first year they report fall enrollment, school districts and charter operators are evaluated on the aggregate results of the students in their campuses. Districts without any students enrolled in the grades for which STAAR assessments are administered (3-12) are assigned the rating label of "Not Rated".

State-administered school districts, including Texas School for the Blind and Visually Impaired, Texas School for the Deaf, Texas Juvenile Justice Department, and Windham School District are not rated. Also, districts with no students enrolled in grades tested (3-12) are not rated.

Campuses All public school campuses, including AECs and open-enrollment charter schools, are rated. New campuses and new open-enrollment charter schools are evaluated the first year they report fall enrollment. The pairing process is used to issue performance results for campuses (serving any grades from PK to 12) with no students enrolled in the grades tested.

Overview of the Accountability System

The overall design of the accountability system evaluates performance according to three domains:

Student Achievement evaluates performance across all subjects for all students, on both general and alternate assessments, College, Career, and Military Readiness (CCMR) indicators, and graduation rates.

School Progress measures district and campus outcomes in two areas: the number of students that grew at least one year academically (or are on track) as measured by STAAR results and the achievement of all students relative to districts or campuses with similar economically disadvantaged percentages.

Closing the Gaps (30%) uses disaggregated data to demonstrate differentials among racial/ethnic groups, socioeconomic backgrounds and other factors. The indicators included in this domain align the state accountability system with the Every Student Succeeds Act (ESSA).

Single-Campus Districts A school district or charter school comprised of only one campus that shares the same 2023 performance data with its only campus must meet the performance targets required for the campus in order to demonstrate acceptable performance. For these single-campus school districts and charter schools, the 2023 performance targets applied to the campus are also applied to the district, ensuring that both the district and campus receive identical ratings. School districts or charter schools that meet the definition above are considered single-campus districts or charter schools in any criteria outlines in the TEA 2023 Manual.

Rating Labels

Districts and campuses receive an overall rating, as well as a rating for each domain.

A – Exemplary performance / Scaled score 90-100

B – Recognized performance / Scaled score 80-89

C – Acceptable performance / Scaled score 70-79

A, B, or C: Assigned for overall performance and for performance in each domain to districts and campuses (including those evaluated under alternative education accountability [AEA]) that meet the performance target for the letter grade.

Not Rated: Indicates that a district or campus does not receive a rating for one or more of the following reasons:

- The district or campus has no data in the accountability subset.
- The district or campus has insufficient data to assign a rating.
- The district operates only residential facilities.
- The campus is a juvenile justice alternative education program (JJAEP).
- The campus is a disciplinary alternative education program (DAEP).

Not Rated: Senate Bill 1365: Assigned in 2023 for overall performance to districts and campuses that do not meet the performance target to earn at least a C.

Distinction Designations

Campuses that receive an accountability rating of A, B, or C are eligible to earn distinction designations. Distinction designations are awarded for achievement in several areas and are based on performance relative to a group of campuses of similar type, size, grade span, and student demographics.

- **Academic Achievement in English Language Arts (ELA)/Reading**
- **Academic Achievement in Mathematics**
- **Academic Achievement in Science**
- **Academic Achievement in Social Studies**
- **Top 25%: Comparative Academic Growth**
- **Top 25%: Comparative Closing the Gaps**
- **Postsecondary Readiness**
 - Postsecondary Readiness Indicators for Campuses:
 - Percentage of STAAR Results at Meets Grade Level or Above Standard (All Subjects)
 - Percentage of Grade 3–8 Results at Meets Grade Level or Above in Both Reading and Mathematics
 - Four-Year Longitudinal Graduation Rate
 - Four-Year Longitudinal Graduation Plan Rate
 - TSI Criteria Graduates
 - College, Career, and Military Ready Graduates
 - SAT/ACT Participation
 - AP/IB Examination Participation: Any Subject
