Cálculo de la prima para pólizas en exceso de \$ 100,000

Aplice estos pasos para determinar la prima básica para pólizas superiores a \$ 100,000:

- Encuentre el rango que incluye el valor nominal de la póliza en la Columna 1.
- Reste el valor en la Columna 2 del valor nominal de la póliza.
- Multiplique el resultado en el Paso 2 por el valor en la Columna 3 y redondee al dólar más cercano.
- Agregue el valor en la Columna 4 al resultado del valor en el Paso 3.

(1)	(2)	(3)	(4)
